

# TactiLink

## Dragon Lite BGAN System

The SNC TactiLink Dragon Lite is a ruggedized compact secure mobile network system. It is designed to provide secure voice and data communications from virtually anywhere in the world, and can be set up in less than 10 minutes. The system provides NIPRNET, SIPRNET, JWICS LAN; secure/non secure telephone; and provides multiple users access and IT functions over a single secure BGAN satellite link or any INTERNET Service Provider connection. It is neatly integrated and packaged in fly-away ruggedized cases. The first compact case contains all of the essential equipment needed to support immediate operations. The second case rounds out the capabilities of the TactiLink Dragon with a robust suite of accessories.
